

DELTA TRACK » 450-550 hp

 **VERSATILE**

A SYMBOL OF STRENGTH

The Versatile legacy of production of articulated four-wheel drive tractors is extensive. When conception of a track unit began there was no doubt that a four-track system was the best solution for Versatile and for the dealers and customers. In partnership with industry-leading suppliers, Versatile has developed a new class leader in the agricultural market.

The fourth letter of the Greek alphabet is Delta.
The Greek symbol for Delta is a triangle; Δ .
The triangle is the strongest geometrical shape.

This is the new Versatile DeltaTrack.

DELTA TRACK

TRACK	4 track system +/- 10° trackframe oscillation. 21.7 mph (34.9 kph) at rated engine RPM.
DRIVE	37.7" (960 mm) drive wheel diameter with 80.6° of track wrap for reduced loading on each drive lug and increased life with more load sharing.
DRIVELUG	Large drivelug width of 8.5" (216 mm) means a strong design for maximum life.
SUSPENSION	Double-axis oscillation bogie offers full unobstructed bogie movement for even support to the track.
BOGIE	Two midroller axle system has fewer rotating parts than comparable units. Tractor axle center is not in line with double axis oscillation bogie system, allowing for the track and bogie system to absorb vibration.
MIDROLLERS	Large diameter 14" (356 mm) polyurethane midrollers reduce track flexing and extend track and midroller life.

DeltaTrack Models

DT450 (450 hp)
DT500 (500 hp)
DT550 (550 hp)

Available Track Widths

30" & 36"

LIMITED AVAILABILITY: Spring 2013
PRODUCT AVAILABILITY: Fall 2013
